

Hotfix Report

Viedoc 4.90.1

Hotfix deployed on 16 December 2025

Hotfix Report

Viedoc 4.90.1

Bug fixes

List of bug fixes that have been updated in this hotfix.

Affected area(s): Viedoc Admin / Viedoc Clinic

Bug description: The User Administration Log (Excel) and Log of Users and Roles (PDF) could not be generated for studies containing more than 100 users. This issue has now been fixed and studies with more than 100 users can now generate these logs as expected.

Affected area(s): Viedoc Reports, Exports

Bug description: In some large studies, syncing data to reports failed. This was due to the large number of medical coding items that lead to a database exception when reading this data. This also impacted normal exports when including medical coding data. This has now been solved so that syncing and exports work as expected.
